

Datasheet HDD-8TB

UniFi® Network

8 TB HDD

8 TB SATA hard disk drive (HDD) ideal for Protect surveillance video storage.

The 8 TB HDD is a surveillance-grade SATA hard disk drive that offers eight terabytes of supplementary storage for a UniFi OS Console or Network Video Recorder (NVR) storing footage captured by a Protect camera security system. The 8 TB HDD is a spacious, high-performance hard drive designed to support large deployments with multiple camera streams that produce numerous Smart Detection and event recordings. With the 8 TB HDD, you will have greater storage flexibility that will allow you to retain key captures longer without constantly worrying about freeing up space. Additionally, this HDD also optimizes your console or NVR's storage reliability and performance, making it the ideal complement for your Protect deployment.

Mechanical

Dimensions	147 x 101.6 x 26.1 mm (5.79 x 4 x 1.03")
Weight	0.72 kg (1.58 lb)

Hardware

Management interface	SATA 6Gb/s
Rotation speed	7200 RPM
Power method	5V/12V input
Supported voltage range	5V \pm 5%/12V \pm 5%
Power consumption	Read/write: 8.6W
Operating temperature	0 to 65° C (32 to 149° F)
Operating humidity	5 - 95% noncondensing
Certifications	FCC, CE, UL, TUV, RCM, KC, BSMI
