Code	Ref.	Dimensions	A
762104	P/DM-11	57.4x14.5x14 mm	For space smaller than 11 mm
762105	P/DM-20	68.3x23.3x314 mm	For space smaller than 20 mm

Model P/DM

Lockout for switches

Functionality and features

The security lock is used to lock to prevent the operation of a power supply or casually isolated equipment until the insulation is finished and the lock is removed. Meanwhile, by using lock tags to warn people, energy sources or isolated equipment cannot be operated casually.

Blocker of switches, magnetothermics, differentials and ICP.

Switch lock is made of ABS resin, corrosion resistance and good insulation performance, easy to install.

We recommend using the professional security lock with the label.

Certificates

Adequate blocking system for compliance with RD 614/2001 on minimum requirements for the protection of the health and safety of workers against electrical risk. BOE nº 148 21/06/2001. (Spain)

The European Framework Directive on Safety and Health at Work (Directive 89/391 EE
