(tangential), large terminal compartment for easy installation, heavy-duty relay for high switching capacity.

Version

COM1 – Surface-mounted, square

About IS 3180

Great performers for industry and business.
100% surveillance over up to 500 m².

These sensors are the perfect choice when it comes to protecting industrial and business premises and making them secure. So it is important to have far-sighted guards that instantly respond to any movement. The IS 3180 is made for the job. The IP 54 rating reliably protects its inner values: featuring top-calibre components such as two precision modular pyro sensors and multi-lens, it watches over almost every last inch of areas measuring a good 500 m². The concealed installation sensor that combines everything that's important to electrical fitters and security personnel.
