

Installation & assembly

- 1 Open the Plejd app and select **Add device**.
- 2 Press the rotary button on WRT-01 to activate it (active for 60 seconds). Select the device in the app and follow the installation steps.
- 3 Pull out the rotary button. Unscrew and remove the center plate. Mount the WRT-01 with tape or screw.
For tape: check the range first by testing functionality from its intended location before taping the WRT-01 in place.
- 4 Mount the cover frame. Fasten the center plate and press the rotary button into place.
